The attention of the Licensed Victuallers is respectfully requested to the following extract from the Morning Advertiser, 25th May, 1872.

WEST INDIA LIME FRUIT.—It ought to be generally known that the fine aroma and refreshing properties of the West India Lime Fruit are preserved from deterioration by a process patented by Messrs. Rose & Co., of Leith and London, and prepared by them in the various forms of Lime-juice Cordial, Punch, Champagne, &c. These popular Beverages are put up in elegant glass-stoppered bottles, engraved with the Lime fruit and foliage. Each bottle of the refined Lime-juice contains the juice of about four dozen Limes, the invaluable properties of which are two-thirds greater in proportion to the lemon. The *Lime-juice Cordial* blended with spirits forms a delicious drink agreeable in all seasons, and a most refreshing summer beverage combined with soda, potass, or other aerated waters. Recommended by the highest medical authorities as eminently wholesome. See "Lancet," "Scientific Review," "Food Journal," &c., &c.

By Royal Letters Patent.

☞ In addition to the above forms of use, the Lime-juice Cordial will be found an excellent flavouring for Gin, Rum, Whisky-toddy, &c., superseding the ordinary use of the lemon.

Analytical Report by WENTWORTH LASCELLES SCOTT, Esq., F.C.S., F.A.S.L., F.R.S.S.A., &c.,

"Analytical Laboratories, London and Wolverhampton. *April 5th,* 1869.

"Apart from intrinsic excellence, Rose's Lime-juice Beverages, although *perfectly free from spirit,* have the peculiar faculty of retaining their composition, flavour, and therapeutical properties unimpaired for any time, and at any temperature within the ordinary climatic ranges, *an advantage possessed by no other brand known to commerce.*"

CAUTION.

Messrs. ROSE & Co., as the Original Manufacturers and Patentees of the above, now so favourably known to the home and export trade, as supplying delicious, wholesome beverages, highly medicinal, beg to caution buyers against the now numerous imitations of these beverages, more especially of their LIME-JUICE CORDIAL, by Rectifiers, Wine Makers, and others. As protection against such, Messrs. ROSE & Co. have adopted Glass Stoppered Bottles, specially manufactured for them and registered, engraved with the Lime Fruit as Trade Mark, the labels also bearing the signature of the Firm,

DR. J. COLLIS BROWNE'S CHLORODYNE.

THE ORIGINAL AND ONLY GENUINE.

ADVICE TO INVALIDS.—If you wish to obtain quiet, refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary aching of protracted disease, invigorate the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. COLLIS BROWNE (late Army Medical Staff, Member of the College of Physicians, London), to which he gave the name of

CHLORODYNE,

AND WHICH IS ADMITTED BY THE PROFESSION TO BE THE MOST WONDERFUL AND VALUABLE REMEDY EVER DISCOVERED.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.
CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.
CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

CAUTION.—BEWARE OF PIRACY AND IMITATIONS.

*** **Earl Russell** *communicated to the College of Physicians that he had received a despatch from Her Majesty's Consul at Manila, to the effect that Cholera has been raging fearfully, and that the* ONLY REMEDY *of any service was* CHLORODINE. *—See Lancet, Dec.* 31, 1864.

Extracts from the **General Board of Health, London**, as to its efficacy in Cholera:—"First Stage or Premonitory. In this stage the remedy acts as a *charm*. One dose is generally sufficient."

G. Hayward, Esq., Surgeon, Stow-on-ye-Wold:—"I am now using Dr. J. Collis Browne's CHLORODYNE with marvellous good effects in allaying inveterate sickness in pregnancy."

Dr. M'Millman, of New Galloway, Scotland:—"I consider it the most valuable medicine known."

J. C. Baker, Esq., M.D., Bideford:—"It is, without doubt, the most valuable and *certain* Anodyne we have."

Dr. Gibbon, Army Medical Staff, Calcutta:—"Two doses completely cured me of Diarrhœa."

From **Dr. B. J. Boulton & Co.**, Horncastle:—"We have made pretty extensive use of CHLORODYNE in our practice lately, and look upon it as an excellent Sedative and Anti-spasmodic. It seems to allay pain and irritation in whatever organ, and from whatever cause. It induces a feeling of comfort and quietude not obtainable by any other remedy, and it seems to possess this great advantage over all other Sedatives, that it leaves no unpleasant after-effects."

CAUTION.—VICE-CHANCELLOR SIR W. PAGE WOOD stated that Dr. J. COLLIS BROWNE was, undoubtedly, the Inventor of CHLORODYNE; that the story of the defendant, FREEMAN, was deliberately untrue, which, he regretted to say, had been sworn to.—See *Times*, July 13, 1864.

Sold in Bottles, at 1*s.* 1½*d.*, 2*s.* 9*d.*, 4*s.* 6*d.*, and 11*s.* each. None is genuine without the words "Dr. J. COLLIS BROWNE'S CHLORODYNE" on the Government Stamp. Overwhelming Medical Testimony accompanies each bottle.

TO INTENDING PURCHASERS.

T. B. & Co.'s advice to intending purchasers of a Washing Machine is,—if you have convenient room, buy either a combined "Vowel" Æ, £8 8s., or "Vowel" E, £9, and you will find your investment a good one, because you will have a well-made, strong, and durable machine, and like thousands of previous purchasers, whose unsolicited testimony—after one, two, three, four, five, or six years—invariably is,

"The longer we use it, the better we like it."

If your room is limited, then buy a separate No. 0 or No. 1 Wringing and Mangling Machine, which will do you *real* good service, and a "Vowel" A Washing Machine, with an "Acorn" India Rubber Wringer, *each* of which you will prize for many years to come, for its own special value for washing, for wringing, and for mangling, and each being very portable, they can be placed or moved about anywhere conveniently.

If the total expense be a consideration, then it is better to buy one of these separate machines first, and do not throw your money away upon some cheap—because cheaply made—combination, that will never do you good service either as a *washer*, *wringer*, or *mangler*.

The "Vowel" Washing Machine has always been sent out *upon trial—before payment; and now, although its value is universally known, we shall continue to do so, that intending purchasers may satisfy themselves by comparative test* of its superior value.

Bradford's Improved Patent "Steady Boy" Cask Stand.

This Cask Stand is well worthy of the name given to it, possessing, as its name implies, "the essential excellence" for the purpose intended. Before use, the back tilt is flush and solid with the strong cast-iron framework, which will bear any weight and rough usage; and, when required, the tilt can be steadily raised by the little finger, when loaded with the largest cask. A trial is solicited.

ADDRESS.

In presenting to the Hotel Keepers and Licensed Victuallers of London and its ever-growing suburbs, and to the Brewers, Maltsters, Hopfactors, and Distillers of the United Kingdom, this first attempt at a comprehensive Trade Directory of the Signs, Names, and Addresses of the numerous wealthy and influential individuals and firms who carry on this great division of our home and foreign trade, the Editor is fully conscious of the shortcomings inseparable from such an undertaking. These, however, he has endeavoured to reduce to the smallest practicable number, and he flatters himself that careful correction, keeping *au courant* with the constantly recurring transfers, and embodying the most recent grants of licences at the General Licensing Sessions, will make the Licensed Victuallers' and Hotel Keepers' Directory, even in its beginning, a reliable and accurate book of reference.

Statistical investigations result in an estimate of £5,000,000 as the capital invested in the retail branch of the Trade in the metropolis alone, while the wholesale, or brewing and distilling businesses in the kingdom, represent £50,000,000, and their united contributions to the national revenue exceed the sum expended on the army and navy of Great Britain. Nay, of two imposts—those on malt and spirits—each exceeds in amount that of any other tax in the whole system of our public burdens. Yet this is the interest, this the trade, which "fools and fanatics," bigots and ignoramuses, choose for legislative experiments and harassing regulation. The importance, respectability, numerical and social strength of this Trade, may be also inferred from the pages of this Directory.

In a work of this nature it would be both ungrateful and unjust not to acknowledge the great assistance rendered by the Clerks to the Magistrates of the several Licensing Divisions included in these pages, by which the new licenses and transfers have been brought down to the most recent date. Of these gentlemen special thanks are due to Henry F. Youle, Esq. (of the City of London), and J. F. Isaacson, Esq. (Strand Division); Charles Wright, Esq. (Holborn and Paddington); John S. Skaife, Esq. (Finsbury); Samuel Cornell, Esq. (Kensington, &c.); Warrington Rogers, Esq. (St. Margaret's, Westminster); F. L. Capron, Esq. (St. George's, Hanover Square); Geo. Buzzard, Esq. (St. James's, Westminster); W. E. Greenwell, Esq. (Marylebone); Charles Wright, Esq. (Paddington); Walter Scadding, Esq. (St. Pancras); Thos. Bridger, Esq. (Hampstead); Stanley Harris, Esq. (Barnet); Joseph F. Jessopp, Esq. (Edmonton and Enfield); and Wm. Reeston, Esq. (Brentford).

On the Southern side of the Thames, the like courtesy has been extended to us, and we are similarly indebted to Geo. Chas. Whiteley, Esq., for the extensive district included under the

title of Newington; to JOHN BATCHELOR, ESQ. (Blackheath, Greenwich, Woolwich, &c.); to JOHN DRUMMOND, ESQ. (Croydon Division); to A. A. CORSELLIS, ESQ. (Wandsworth); to ROBINSON LATHER, ESQ. (Bromley); and JOSIAH CARTLIDGE, ESQ. (Richmond).

PLAN OF THE WORK.

The plan of the present DIRECTORY has been the subject of much thought and consideration. The Postal Districts which, in the first instance, we had marked out for our canvassers and name-collectors, proved—for the purpose of an index to Signs of Houses or of Surnames—intricate, puzzling, and almost useless. A *south-western* territory (Pimlico and part of Westminster lies *north* of the Thames) and a considerable portion of a *south-eastern* postal district lies to the *west* of the City of London; to say nothing of eight double lists of Signs and Names to refer to in cases where the searcher was not clear in which postal division the house or landlord he sought might be situated. Finally, the plan here adopted was fixed on as the broadest in its outline, clearest in its defined limits, and simplest for ready reference. It treats the metropolis as geographically presenting but three divisions:—

I.—THE CITY OF LONDON, with the Signs of Houses alphabetically arranged.

II.—THE NORTH OF THE THAMES (from Barking to Brentford), arranged in like manner.

III.—THE SOUTH OF THE THAMES (from Woolwich to Richmond).

These lists are next transposed, thus—

IV.—THE CITY OF LONDON, arranged alphabetically under the Surnames of the Landlords.

V.—THE NORTH OF THE THAMES, similarly arranged.

VI.—THE SOUTH OF THE THAMES, also under the initial of the surname.

The second part of the work is devoted to—

I.—THE BREWERS OF LONDON AND ITS SUBURBS.

DISTILLERS AND RECTIFIERS IN LONDON.

II. & III.—THE BREWERS AND MALTSTERS OF ENGLAND AND WALES, arranged in Counties and Principal Cities, as follows:—

THE HOME COUNTIES (Middlesex, Surrey, Essex, and Kent); BEDFORD, BERKS, BUCKS, CAMBRIDGE, CHESHIRE, CORNWALL, CUMBERLAND, DERBYSHIRE, DEVONSHIRE, DORSETSHIRE, DURHAM, GLOUCESTERSHIRE (Bristol), HAMPSHIRE, HEREFORDSHIRE, HUNTINGDON, LANCASHIRE (Liverpool, Manchester), LEICESTER and RUTLAND, LINCOLNSHIRE, MONMOUTHSHIRE, NORFOLK, NORTHAMPTONSHIRE, NORTHUMBERLAND, NOTTINGHAMSHIRE, OXFORDSHIRE, SHROPSHIRE, SOMERSETSHIRE, STAFFORDSHIRE, SUSSEX, SUFFOLK, WARWICKSHIRE, WESTMORELAND, WILTSHIRE, WORCESTERSHIRE, YORKSHIRE (North and West Riding), WALES (North and South).

IV.—BREWERS AND DISTILLERS IN SCOTLAND AND IRELAND.

V.—HOP MERCHANTS AND HOP FACTORS.

In the lists of Brewers and Distillers we have also received valuable assistance. Three thousand eight hundred circulars have been forwarded by post to the Brewers and Distillers

of England and Wales, requesting corrections of the errors (if any) in the names of the firms as given in the circular. Several hundreds of alterations have been returned, and these are embodied in the printed text of the DIRECTORY.

For the Scotch Collections our thanks are due to Mr. WALTER PARLANE, Editor of the *Scottish Standard*, and for the Irish to Mr. MICHAEL DWYER, Secretary to the Dublin Vintners' Association, and Parliamentary Agent for the Irish Associations.

It may here be a fit place to solicit our friends to assist us with suggestions for the improvement of the DIRECTORY, and such necessary corrections as may make the volume for next year a nearer approach to the complete DIRECTORY which, with their assistance, we hope to perfect.

To increase its utility as a Trade Book, the Editor has prepared an Information-sheet, consisting of a Calendar for the years 1874–5, Lists of Bankers, Stamps, Postal Regulations, Licensing, &c.

The experience acquired in more than twenty-five years of literary and editorial labour devoted to the daily journal of the Incorporated Society, the MORNING ADVERTISER—in the conduct of my own weekly paper, the LICENSED VICTUALLERS' GAZETTE—and in producing the LICENSED VICTUALLERS' YEAR-BOOK, and other works specially devoted to trade interests—has convinced me that a SPECIAL DIRECTORY must be an acceptable and serviceable book of business-reference to the LICENSED VICTUALLERS, HOTEL KEEPERS, BREWERS, MALTSTERS, and DISTILLERS of the Kingdom, to whose use this volume is dedicated by

Their obliged and faithful servant,

HENRY DOWNES MILES.

Rule for Calculating any Rate of Interest with a Five per Cent. Table.

Multiply the principal by double the rate of interest required, then strike off the right-hand figure, the remaining figures at 5 per cent. will give the interest required. If the figure struck off is any other than a 0, add it as pence to the interest, and an additional penny if the figure is 4 or upwards.

A CONCISE READY RECKONER.

By the Pound, Yard, Stone, &c.

To know the price of articles purchased at pence only, multiply the number of pounds, yards, &c., by the price, and divide by 12, which gives the amount in shillings; for three half-pence divide by 8, the answer is shillings.

This Society has now been nearly 80 years in existence, during which period upwards of 18,300 Licensed Victuallers have become Members. The present number of members is about 3,500.

It has distributed more than a Quarter of a Million sterling in weekly allowances, upwards of £100 per week being now received by 312 Members.

Members of the Society, after being in business three years from the date of Membership, if overtaken by distressed circumstances, accompanied by sickness or bodily infirmity, are entitled, upon application to the Governor and Committee, and without the necessity of election by the general body of Members, to participate in the benefits of the Society.

Every Child under Twelve years of age of a Member dying distressed is entitled to 2s. per week, and upon the decease of both parents to 4s. per week.

Members are required to take the MORNING ADVERTISER while in business as Licensed Victuallers. One Shilling per annum may be paid in lieu of so doing while out of business.

In a recent Report of the Society it is stated that 48 persons then deceased, who had paid entrance fees of only One Guinea each, received upwards of £18,500, or more than £383 each.

MR. JAMES B. BURGESS, *Governor*,

WILLIAM SMALLEY, *Secretary*.

Licensed Victuallers' School,

KENNINGTON LANE, LAMBETH.

INSTITUTED 1803. ENFRANCHISED 1857.

Patroness—THE QUEEN.

Gentleman's Life Subscription, £10 10s. | Lady's Life Subscription, £5 5s.
Annual Subscription ..... £1 1s.

A Life Subscription of Ten Guineas may be paid by instalments extending over three years.

From the establishment of the Institution up to the present time 1,896 children have been received. Children are eligible for admission between the ages of 7 and 12. Boys remain in the School until 14, and Girls until 15 years of age.

Members of the Incorporated Society contributing £5 5s. to the School, after having belonged to the Society for two years, render their children eligible to be nominated as candidates for election. The neglect of Members to contribute to the School has deprived many children of its benefits. The subscription may be paid by either parent, but prior to the decease of the last surviving parent. Licensed Victuallers not being Members of the Society, on payment of Ten Guineas, either at one time or by instalments, within three years, and subsequently completing two years in business, are entitled to the like privileges.

The annual expenditure for the School exceeds £5,500.

The next Election of Children will take place at the School House, Kennington Lane, in March next. The number to be admitted will be duly announced. No applications will be received after the 31st of December.

Ηλεκτροθεραπευτικον.

The following are the diseases most readily yielding to Electrical Treatment: **Rheumatism, Paralysis, Neuralgia, Sciatica, Nervous Debility, Hypogastria, Constipation, Torpid Liver, Piles, Nervous Deafness, Weakness of Sight, Pain.**

31, SACKVILLE STREET, PICCADILLY, W.

NERVOUS DISEASES and their SUCCESSFUL TREATMENT. Demonstrated by the WORKS of Mr. HARRY LOBB, Surgeon-Electrician, of 31, Sackville Street, Piccadilly, W.

Third Edition, free by post, 13 stamps.

CURATIVE ELECTRICITY, especially addressed to Sufferers from Paralysis, Rheumatism, Neuralgia, and Loss of Nervous and Physical Powers.

Second Edition. Price 2s. 6d.

HYPOGASTRIA in the MALE, treating upon those Symptoms accompanying and resulting from a debilitated constitution, and suggesting a rational and successful treatment.

1. Incontinence of urine in childhood.
2. Hysteria in the male.
3. Stammering.
4. Spinal debility; Spinal irritation.
5. Piles.
6. Varicocele.
7. Enlargement of the prostate.
8. Nervous exhaustion.
9. Tabes dorsalis; Progressive Locomotor Ataxy.
10. Hypochondriasis—*i.e.*, certain symptoms hitherto classified under this head, but which I have detached from it, and defined Hypogastriacis.

ALMOST without exception, Patients affected with Hypogastria complain most of their symptoms in the morning; as the day advances, they improve; and after dinner is their best time. Instead of waking up refreshed, ready to turn out of bed immediately, the hypogastria is languid, dull, heavy, disinclined to move, desirous again to sleep; the limbs are heavy, sometimes even stiff, the back feels weary, and altogether he feels worse than when he retired to rest, unrefreshed, and more tired, apparently, than when he went to bed.

CHEQUE BANK,

LIMITED,

PALL MALL EAST, S.W.,

AND

124, CANNON STREET, E.C.

THE CHEQUE BANK

supplies blank cheque forms for sums from £1 to £10 each, crossed and payable to order.

No blank cheque is supplied until the maximum amount for which it can be drawn has been deposited; and thus no account can be overdrawn.

Each Cheque Bank cheque is stamped with the maximum amount for which it can be drawn, but it may be used for any less sum.

The amount represented by a Cheque Bank cheque cannot be withdrawn until the cheque is presented for payment, however long it may remain in circulation.

For Remittance by Post of Small Amounts

Cheque Bank cheques will be found more convenient and much less expensive than Post-office Orders.

Thus, a Post-office Order for £10 costs 1s., while the same amount can be sent by post by a Cheque Bank Cheque for one and one-fifth of a penny, and the cheque when received can be changed or paid away with the same facility as a Bank Note.

CHEQUE BANK.—Collection of Debts, and payment of Weekly or Monthly Subscriptions.

Public Companies, Benefit Societies, Commercial Firms, or private individuals, banking with the Cheque Bank, can obtain Paying-in Slips, by means of which they may have collected, without trouble to themselves, all amounts due to them in any town in Great Britain in which there is a bank in relation with the Cheque Bank.

TO TRAVELLERS

and to all persons making numerous small disbursements, the crossed cheques of the Cheque Bank offer security and convenience.

CHEQUE BANK CHEQUES

are supplied in books of ten cheques each, price 1s., which includes the Government Stamps.

APPLICATION FOR CHEQUE BOOKS

accompanied by a remittance, can be made to any of the banks in relation with the Cheque Bank, or at the offices of the Cheque Bank, Pall Mall East, and No. 124, Cannon Street, E.C.

A LIST OF BANKS

in relation with the Cheque Bank, and all further information as to the mode of opening and keeping accounts, may be obtained on application at the offices of the Company, or by letter post free.

THE CHEQUE BANK

does not pay Interest on Deposits, nor undertake any financial business. All monies received are deposited with the bankers in relation with the Cheque Bank.

CHEQUE BANK.—A Guarantee Fund of £100,000 Consols

has been invested in the names of the following Trustees :—

ROBERT DALGLISH, Esq. | SAMUEL MORLEY, Esq., M.P.
CUTHBERT ELLISON, Esq., J.P. | W. H. SMITH, Esq., M.P.

HOW BREWERS CAN LESSEN THE PRICE OF GOOD HOPS.

Copied from the "Licensed Victualler's Guardian," 5th July, 1873.

"HOP SUPPLEMENT."—It is within the knowledge of every practical Brewer, that in Old Hops the bitter principle degenerates into something which is positively injurious to beer, while at the same time the true aroma, or volatile oil of the plant, dies out by a process of slow oxidation. Despite these well-known facts, many Brewers take advantage of a fall in the Hop-market to lay in a stock sufficient to last them for two or three years, forgetting that the Hops, after even a year's keeping, lose to an appreciably large extent their most valuable properties. Our best Brewers are well aware that the use of old Hops is fatal to the brew, and to avoid their use, the plan has been adopted of employing in part a substitute with new Hops. But this plan was not complete until the introduction, by **Messrs. Estcourt & Co, 41, Dorset Street, Hulme, Manchester,** of their **Patent Hop Supplement,** by which Brewers are enabled to practically replace the bitter of Hops, and preserve the flavour and aroma of those Hops with which it is used. We can do no better justice to this invention than by quoting and thoroughly endorsing the words of a high authority as to its merits. "With this substance at hand—as it is **Uniform in Strength and Price**—Brewers can suit their purchases of Hops to the state of the market, never, even with the lowest prices, having occasion to buy more than a year's stock; whilst during years of only moderate or scanty crops they need only expend the same total sum on good Hops, and 'Hop Supplement,' as they did when Hops were cheap," but apart from the consideration of price, it is always an advantage to mix "Hop Supplement" with Hops when a **fine wholesome Pale Ale** is required. **It imparts no colouring;** and is therefore specially adapted for giving a bright Sparkling Pale appearance to Ales. The Benefit effected in the **Brewing of Bitter Beer** is a **Saving** of **One-third** of the **Hops** to be used, while the Quality of the Beer is absolutely improved, and its **keeping properties increased.** These facts, coupled with the fact that its use has received the **Sanction** of the **Highest Medical Authorities,** make it a desideratum **to all** in the **Brewing Trade.**

ESTCOURT'S HOP ESSENCE COMPANY,

LIMITED.

CAPITAL £12,000.

TRADE MARK.

REGISTERED. REGISTERED.

In order to protect themselves against *illegal* and *spurious imitations*, the Proprietors and Original Inventors of this invaluable substitute—the Hop Essence—have incorporated themselves under the "Limited Liabilities' Act of 1862 and 1867." It is still a proprietary concern, and consists solely of seven persons.

Directors:

FRED E. ESTCOURT, Manchester,
JAMES TAYLOR, ,,
HENRY ESTCOURT, ,,

The others being Confidential Employés of the concern. Thus our clients can rely as formerly on the confidential nature of their business with us.

Consulting Chemist to the Company, C. ESTCOURT, Esq., F.C.S., Analyst to the City of Manchester, late Chemist to the Inland Revenue,

By our retaining whose services Brewers will always be assured of the legality and purity of the Hop Essence.

The HOP ESSENCE is used with equal advantage in summer and winter alike.

It is the most perfect and effectual substitute for the bitter of the Hop, and, in addition, contains that *principle of the Hop Plant* which is the *real and only preventive of acidity* in the operation of brewing. It possesses the great advantage, even over *Hops*, of being *always alike* in strength of *bitter and flavour*.

On account of its *unrivalled keeping properties*, and its giving brightness without imparting colour, it is used by the Trade in preference to all known substitutes in Stock and Export Beers. Neither Analysis nor TASTE can distinguish beer brewed with the Hop Essence from beer brewed entirely *with the best Hops*.

The saving in cost in large breweries amounts to an immense sum annually. A few examples will illustrate it, thus: Suppose Hops are 1s. per lb., and let 8 lb. of Hops per quarter of Malt be used; then, if we replace *only a quarter* of the Hops by Hop Essence,

A Brewery Mashing	3	quarters	per	day,	would save	per annum	.....£70 0 0
,,	,,	4	,,	,,	,,	,,	.....£93 12 0
,,	,,	10	,,	,,	,,	,,	... £234 0 0
,,	,,	30	,,	,,	,,	,,	... £702 0 0
,,	,,	50	,,	,,	,,	,,	...£1170 0 0

As *good* Hops generally average more than 1s. per lb. the saving is much greater.

No deterioration by keeping. No weighing required. *Sold in packages of all sizes*, to suit any brew, at 3d. per lb. of Hops represented, to any brewer in the United Kingdom. A small packet, marked No. 4, and equal to 4 lbs. of best Hops, costs 1s.; a packet, marked No. 20, and equal to 20 lbs. of best Hops, costs 5s., &c., &c. The Hop Essence is sent carriage free to any part of the United Kingdom, *the outside* wrapper or box bears only the address of the buyer.

Analysis made of Water, Sugar, &c., &c., on Special Terms to Customers. And Consultation on Brewing Matters by Correspondence.

The HOP ESSENCE can be procured ONLY from

Estcourt's Hop Essence Company, Limited,

6, Corn Exchange Chambers, Hanging Ditch,

MANCHESTER.

Orders should be sent to the above address. Post Office Orders, Cheques, &c., to be made payable to FRED E. ESTCOURT. Circular, with instructions as to use, &c., sent on application.

We would warn our Customers against Imitators and their Circulars.

ARRANGED IN COUNTIES.

SNOW-WHITE
SACCHARINE,

RENOWNED FOR

DELICACY AND BRILLIANCY.

THE BEST AND SAFEST FOR SUMMER USE.

The special attention of Brewers is invited to this fine Saccharine, which is one of the PUREST HITHERTO OFFERED, and which possesses many qualities of great value, amongst which are—

An unsurpassed whiteness and purity, producing a perfectly colourless solution entirely free from sediment, coupled with an absence of any unpleasant smell or taste which is to be found in some other kinds.

A perfect fermentation with an augmented alcoholic strength.

Facility of solution and a great saving of trouble in manipulation.

It will be found to add materially to the BRILLIANCY, TRANSPARENCY, and SPARKLE of the Ales, and to impart to them a great DELICACY OF FLAVOUR, thereby making it invaluable for Bitter, Pale, and Family Ales.

It may be safely used in SUMMER, and for brewing Export Ales, when other Sugars are attended with danger.

This Saccharine is in small pieces, and is sent out in bags of 1 cwt. net weight.

Prices very moderate, and will bear a favourable comparison with those of other make.

Samples and particulars will be sent, on application to

The Brewers' Guardian:

A Fortnightly Paper devoted to the Protection of Brewers' Interests in Licensing, Legal, and Parliamentary matters;

Review of the Malt, Hop, and Sugar Trades; and Wine and Spirit Trades' Record.

THE OFFICIAL ORGAN OF THE COUNTRY BREWERS' SOCIETY.

(FOUNDED 1822.)

Published on every alternate Tuesday evening.

The only Journal officially connected with the Brewing Interest.

THE BREWERS' GUARDIAN is the recognised representative of the various important trades connected with the Brewing interest, and is the Official Organ of "The Country Brewers' Society," founded in 1822. *Every Member* of this important Society, composed of leading Country Brewers throughout Great Britain, and of several other Societies of Brewers, *receives a copy of each issue.*

In addition to this large circulation, it is extensively supported by Brewers, Maltsters, Hop Growers, Hop Factors, Sugar Brokers, and others throughout the kingdom. Advertisers will promptly realize the weight of a large list of influential ANNUAL SUBSCRIBERS amongst the leading members of the Brewing interest, and of the trades in connection therewith throughout the world, conjoined with the guaranteed circulation of "The Country Brewers' Society," and of the other Societies, in securing a publicity which is afforded them by no other medium. It has also a circulation on the Continent, in the United States, Canada, and the Colonies.

The BREWERS' GUARDIAN is conducted by a Staff connected with, and cognizant of, the Trade, and contains not only all the News of the day interesting to Brewers and those engaged in the collateral branches of the trade, but Original Articles, Chemical and Analytical Researches, Scientific Reports, Notices and Descriptions of Inventions and Improvements, illustrated, when necessary, with Engravings, Trade Returns, Business Changes, and Special Market Reports.

CODD'S PATENT
GLOBE-STOPPERED SODA-WATER BOTTLE.
The Malvern Mineral Waters Company,
GROVE LANE, CAMBERWELL, LONDON, S.E.,
AND MALVERN WELLS, WORCESTERSHIRE.

The Only Prize Medal Awarded.

THE MEDAL FOR PROGRESS,
VIENNA EXHIBITION, 1873,
For Aerated Water Bottles, was Awarded to
CODD'S PATENT
GLOBE-STOPPERED SODA-WATER BOTTLE.

PATENTED IN GREAT BRITAIN, THE COLONIES, EUROPE, AND AMERICA.

TO THE CONSUMERS OF AËRATED WATERS.

All lovers of cooling and refreshing beverages will be pleased to hear of anything which promises to be an improvement upon the old and objectionable system of corking aërated drinks.

There are but few, however, who have believed that corks could be done away with entirely, and that any new system could be found that would practically upset the old one.

There have been many attempts, from time to time, to accomplish this end, as the records of the Patent Office will show, and all sorts of clumsy contrivances have been resorted to, but without success, especially by means of metal caps screwed on to the top of the bottle, through which the liquid must pass before going into the glass or tumbler.

It has been reserved to the present time for a *new principle* to be developed, which may be briefly described as *the utilising of the pressure in the bottle* to close the stopper. As almost every one knows, Soda Water consists chiefly of pure water and carbonic acid gas, bottled at considerable pressure. This has hitherto been accomplished by driving a cork into the mouth of the bottle after it has been filled with carbonated water, and then wiring it down.

In Codd's Patent Bottle, in lieu of cork and wire, we have a stopper, consisting of a spherical ball of glass, hermetically sealing the neck of the bottle by the pressure of the carbonic acid gas within, which jams it in its seat—an elastic ring, occupying a groove made in the neck of the bottle to receive it. This ball is easily pressed back when it is desired to release the contents; the globe of glass falling into the annular space provided for it in the interior of the bottle, as shown in the annexed Woodcut, Fig. 1. The glass ball having fallen into the cavity, the impressed liquid flows over it, as in Fig. 2.

Fig. 1.—Boxwood Cap for Opening Bottle.

Fig. 2.—Position of the Globe Stopper when pouring out the Aërated Water.

The advantages this Patent Bottle possesses over all other forms of bottle are as follow:—

1. This Bottle is easily and quickly filled.
2. Is perfectly clean, Glass being the only substance the liquid comes in contact with.
3. Can be easily capsuled, and is perfect for Exportation; Sample can be seen which has been round the world.
4. The Stopper cannot come out, and is perfectly safe.
5. A child can open it with ease and security.
6. No noise or splashing when opened.
7. The water contained in it cannot lose its strength, flavour, or purity.
8. No Wires or Corks to rust or become porous.
9. Skilled labour entirely dispensed with.

NOTICE.—About Sixty Licences have already been granted, and several more are in negotiation. Apply to

MR. HIRAM CODD, PATENTEE,
THE MALVERN MINERAL WATERS COMPANY,

The Patentees beg respectfully to draw the attention of the Mineral Water Trade in particular to the fact that they are now in a position to grant any number of licences, extending over the Term of the Patent. An early application for Bottles is solicited, as the demand is great, and all orders must be executed in rotation.

THE PATENT HIGH-PRESSURE SELF-CLEANSING FILTERS.

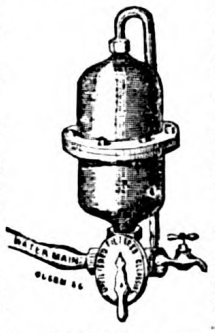
The efficiency of these Filters is acknowledged by all who have seen them to be most remarkable.

Sole Maker: JOSEPH HALLIDAY, Portland Works, Water St., Newtown, Manchester,

ENGINEER AND BOILER MAKER.

The following are some of the advantages possessed by these Filters:—

1st. They give a *continuous* supply of thoroughly filtered water.
2nd. Being attached to the Water Main, they require no filling, as do ordinary Filters.
3rd. They remove from water all organic impurities, and other matters held in suspension, and some of the mineral bases held in solution.
4th. They render water *bright, free from odour, and colourless*, and better adapted for manufacturing and all domestic purposes.
5th. They can be *instantly cleansed without cost or loss of time*, by turning the hand on the dial plate from a point thereon marked Filtered to a point marked Cleansing.
6th. Under a steady pressure their purifying powers will continue unimpaired for years.
7th. For large Houses and Public Institutions, they can be fitted on the water main in a cellar, and will supply filtered water through all the ordinary taps in the building.



8th. Their use will to a great extent prevent the scaling of Steam Boilers.
9th. They cost much less than Filtering Cisterns, Filter more efficiently, and give a much greater supply.
10th. They are the *only* Filters that will filter water as rapidly as supplied by the water mains.
11th. They occupy little space, and may be attached to pipes in any part of the building.
12th. The supply of water is regulated by the hand on the dial plate, on which three points are indicated:—UNFILTERED, FILTERED, and CLEANSING.

These Filters are in use at Print Works, Bleach Works, Paper Works, Dye Works, Hospitals, Asylums, Reformatories, Hotels, Restaurants, Spirit Merchants, Soda Water Manufacturers, Lancashire and Yorkshire Railway Company, Manchester Royal Exchange, Manchester Royal Infirmary, Private Houses, &c.

Spirit Merchants will find this the Best Filter in the Market for Clearing Barrel Bottoms and Mixed Spirits or Droppings.

These Patent High-pressure Self-cleansing Filters are made in the following sizes, viz.:—

No. 1 will filter 300 gallons per day.	No. 3 will filter 1,000 gallons per day.	No. 6 will filter 6,000 gallons per day.
No. 2 ditto 600 ditto.	No. 4 ditto 1,500 ditto.	No. 7 ditto 12,000 ditto.
	No. 5 ditto 3,000 ditto.	

For Manufacturing or other purposes these Filters are made to supply up to 250,000 gallons per day.
Hand or Steam Pumps attached at little extra cost.

PROSPECTUS.

The object of this Association is to supply Coal to Shareholders and their friends and to the public not Shareholders at a price considerably less than that supplied by the Coal Merchant, whose profits for the last two years have been enormous.

When sufficient capital has been subscribed a Colliery, or Collieries, will be purchased, and the Shareholders made their own Colliery Proprietors, Coal Merchants, and Customers. By this principle of co-operation, the profits between the pit's mouth and the coal cellar are done away with.

In the meantime the Directors have entered into contracts for the supply of Coal of superior qualities, direct from the Colliers, which will be supplied throughout the year, in London, and within a radius of 12 miles, at such a rate per ton that to Shareholders a saving of about 20 per cent. as against the ordinary price of Coal charged by Coal Merchants will be effected. Three qualities of Coal will be supplied.

Each Shareholder (or such friend or friends as the Shareholder may choose to nominate to the Secretary) is entitled to receive, at cost price, two tons of Coal per annum for each £1 Share held in the Association.

A Shareholder may take up any number of Shares, but where a large supply of Coal is required by one Shareholder, the Directors will distribute the quantity over a reasonable time so as not to interfere with the requirements of smaller Shareholders.

Shareholders who do not use their right to Coal at cost price—will be entitled (before any profits are divided) to a Preferential Dividend of 10 per cent. per annum.

The delivery of Coal will be made in the order of application for Shares.

The Licensed Victuallers and public are asked to take Shares in the Association on the following conditions:—

To apply for Shares by filling up the Form of Application for the Number of Shares for which they are desirous of subscribing, and regulated by the number of tons of Coal they annually burn.

A deposit of 10s. per Share to be paid on application, and the remaining 10s. on allotment. When the amount applied for is over £5 the same to be forwarded to the Bankers, and when less to the Secretary.

No further liability beyond £1 per Share is attached to the Shareholder.

A single Share may be subscribed for.

Quantities of not less than one truck forwarded to any Railway Station.

Prospectuses and Forms of Application for Shares may be had on application to the Consolidated Bank; or to the Secretary, at the Company's Offices, Mansion House Buildings, Queen Victoria Street, London, E.C., where the Memorandum of Association and Articles of Association, the Agreements, and specimens of Coal may be seen and further information obtained.

STURGES' MONTSERRAT COMPANY'S

LIME FRUIT JUICE.

R. WARNER begs to thank his friends and the Wine and Spirit Trade generally for their liberal support during his well-known exertions and outlay in opening up the Lime Juice Business. With great confidence he now calls their *special* attention to

THE PURE LIME FRUIT JUICE CORDIAL,

produced from the Fruit *only*, grown on the extensive Plantations of the Company in the Island of Montserrat, in the West Indies.

Its reputation has long been established by the following facts:—

First,—It is the *natural* Juice of selected Fruit only when fresh gathered, under the immediate supervision of the Company; the Juice of the unsound Fruits being rejected, and exported for manufacturing purposes.

Second,—Its transparency and keeping properties are the result of simple subsidence, and not from any process of injurious antiseptics.

Third,—It is an agreeable wholesome Beverage in summer, and for all seasons, diluted with water, or blended with Spirits, Claret, Soda-Water, &c, according to taste.

Tested and recommended by the highest Medical Authorities. The following is one of the Reports:—

"We have subjected the samples of the Lime-Fruit Juice of the Sturges' Montserrat Company to full analysis, with a view to test its quality and purity. We have found it to be in sound condition, and entirely free from adulteration. It is claimed for this Juice that it is expressed only from the prime Fruits, those in a perfect condition of ripeness; moreover, only about two-thirds of the Juice is expressed from these selected Fruits, and it is affirmed that this mode of preparation renders the keeping properties of the Juice greater. In fact, in place of deteriorating, it improves with age."—*Lancet*, June 18, 1870.
